**RESPONSE TO LACK OF UNITY REQUIREMENT**

**Mail Stop AMENDMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In complete response to the lack of unity requirement issued on November 30, 2006, Applicant elects claims 8-20 **with traverse**.

Applicant traverses the lack of unity requirement on the grounds that the lack of unity standard is not applicable to the present application. The present application was filed under 35 U.S.C. § 111 claiming priority under 35 U.S.C. § 120 as a continuation of a PCT International Application. As discussed in M.P.E.P. § 1893.03(d),

unity of invention (not restriction) practice is applicable ... in national stage applications submitted under 35 U.S.C. 371. *Restriction practice continues to apply to U.S. national applications filed under 35 U.S.C. 111(a), even if the application filed under 35 U.S.C. 111(a) claims benefit under 35 U.S.C. 120 and 365(c) to an earlier international application designating the United States or to an earlier U.S. national stage application submitted under 35 U.S.C. 371. (emphasis added).*

Attorney Docket No. 080437.53242US

Since the present application is not a national stage application submitted under 35 U.S.C. § 371, the lack of unity standard is not applicable to the present application, the lack of unity requirement is improper and should be withdrawn.
